

Step by Step

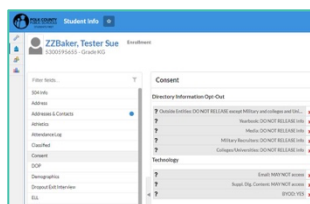

Step One

In FOCUS, select a student and choose Student Info.

Step Two

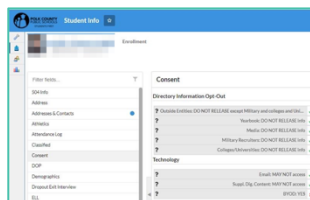

Find the consent domain and look for the Technology options.

Step Three

A red "X" means the parent DID NOT opt out. The student does have access.

A green check means that the parent DID submit an opt-out form for their child. The child does not have access.

There are two areas that matter:

Email: affects access to Google Workspace apps and other items tied to email.

Supplemental Digital Content: affects teacher-selected websites, webapps, and apps.

Neither option affects required technology use (eg. Testing).
